- Hyatt Regency Chicago

SWOG NCORP Research Base Clinical Trials Workshop

*For Clinical Research Professionals and Investigators at
NCORP, Member and LAPS Institutions and Affiliates*

In the past several years, SWOG has expanded its research portfolio to include more studies in Cancer Control and Prevention and Cancer Care Delivery Research under the NCI Community Oncology Research Program (NCORP) umbrella. This workshop will address SWOG studies specific to NCORP research areas in:

- **Cancer Survivorship**
- **Prevention & Epidemiology**
- **Cancer Care Delivery Research**
- **Symptom Control and Quality of Life**

The workshop will consist of didactic presentations and breakout sessions.

Please contact cancercontrolquestion@crab.org for questions.

THE HOPE FOUNDATION

Because answers to cancers come from clinical trials

*A HOPE FOUNDATION sponsored Clinical Trials Training Course for Studies in
Cancer Prevention, Control, Screening and Surveillance And Cancer Care Delivery Research*
