

Immunotherapeutics Committee

Wednesday, April 6, 2022

4:30 PM - 6:30 PM PT

4:30 - 4:35 PM

Welcome and Introductions

Katie Politi & Siwen Hu-Lieskovan

4:35 - 5:05 PM

Identification of Genes Uniquely Contributing to Checkpoint Blockade Induced Immune Related Adverse Events

David Serreze, PhD

Professor, The Jackson Laboratory

5:10 - 5:40 PM

Dissecting the Genetic Control of Response to Immune Checkpoint Inhibitors in Cancer

Edison Liu, MD

Professor, The Jackson Laboratory

John Graham, PhD

Associate Research Scientist, The Jackson Laboratory

5:40 - 6:10 PM

Biomarker assays for NCI iMATCH study

Biswajit Das

Molecular Characterization Laboratory

Frederick National Laboratory for Cancer Research

6:15 - 6:25 PM

iMATCH Pilot (BICAZO) Update

Paul Swiecicki

6:25 - 6:30 PM

Closing Remarks
