General Notes:

- The Reporting Period Start Date for the first study timepoint will generally be the date of registration, unless stated otherwise by the protocol or form instructions.
- The Reporting Period End Date will be the last date that data is collected for that study timepoint, which typically is the date of the study visit for that timepoint.
- The Reporting Period Start Date for subsequent timepoints should match the End Date of the previous timepoint.
 - For example: A participant is registered on 9/20/2023 and their first study visit (Week 4 timepoint) occurs on 10/18/2023
 - o In this case, the Week 4 Reporting Period Start Date will be 9/20/2023
 - o The Week 4 Reporting Period End Date will be 10/18/2023
 - The Reporting Period Start Date for the next timepoint will be 10/18/23
 - The Reporting Period End Date will be the date of the next study visit, this pattern repeats until the last timepoint
- The Planned Dose and Actual Dose fields have multiple unit options, for weight-based or fixed dosing.
- Additional treatments can be added to the table using the "Add a new Log line" link.

Save Cancel

General Notes:

- The Off Protocol Notice form should be submitted whenever a participant meets the criteria for removal from protocol participation detailed in the protocol.
 - Treatment changes (discontinuation, new therapy, etc.) or disease changes (progression, relapse, etc.) may or may not require Off Protocol Notice submission. Confirm with the protocol before submitting the Off Protocol Notice form.
- Some studies may also require an Off Treatment/Intervention Notice form be submitted when specific criteria are met
- In the event of a participant death, the Off Protocol Notice may need to be submitted in addition to the Notice of Death form.
- If the Off Protocol Notice is being submitted due to consent withdrawal, make sure to confirm with the participant that they wish to withdraw from all follow-up, including direct and indirect follow-up. If confirmed, please enter a comment noting that participant is withdrawing from all follow-up.

Notice of Death

Consent Withdrawal

This form can only be populated by the SWOG Data Coordinators. If the patient has withdrawn all consent, including consent for follow-up and survival follow-up, please email the data coordinators via the email address listed on the SWOG Protocol Contact Information Page (near the beginning of the protocol document).

	ge: Consent Withdrawal - Consent Withdrawal							
	CONSENT WITHDRAWAL							
	Complete this section if the participant decides to refuse all further follow-up AND contact for the study. Obtain clarification if the participant does not explicitly state why they do not want to be contacted. Ask if they woul indirect contact gleaned from medical record review in lieu of direct follow-up such as a phone call in order to conti reporting survival data. Date is in DD MON YYYY format.							
	Date of consent withdrawal	v 0 8 N						
	I affirm that this patient has withdrawn their consent for further follow-up on this study.							
	RESCIND CONSENT WITHDRAWAL							
	Complete this section if the patient decides to resume follow-	up on the study.						
	Date patient rescinded consent withdrawal
