

Disclosure of Relevant Financial Relationships with Ineligible Companies
Spring 2024 SWOG Group Meeting

The Hope Foundation endorses the Standards of the Accreditation Council for Continuing Medical Education and the Guidelines of the American Medical Association. The Hope Foundation requires that all presentations at CME activities be fair, balanced, free of commercial bias, and fully supported by scientific evidence.

Everyone who is in a position to control the content of continuing medical education activity is required to disclose relationships with commercial companies whose products or services are discussed in educational presentations. The ACCME considers the relationships of the person involved in the CME activity to include the financial relationships of a spouse or partner.

Disclosure of a relationship is not intended to suggest bias in any presentation but is made to provide participants with information that might be of potential importance to their evaluation of a presentation.

All potential conflicts of interest have been resolved prior to this program.
