TrACER: A Pragmatic Trial Assessing CSF Prescribing Effectiveness and Risk

This pragmatic trial is designed to test an intervention to increase compliance with guidelines, and generate evidence to assess effectiveness of Primary Prophylactic CSF (PP-CSF) on reducing rates of FN for patients receiving intermediate-risk chemotherapy regimens. TrACER is the first trial of its kind and is sponsored by SWOG, a part of the National Clinical Trials Network. The trial is led by Dr. Scott Ramsey at HICOR and funded in part by PCORI.

MEDICAL RECORD REVIEW TIMING

Date of Medical Record Review on the 6 Month Status Update, 6 Month Febrile Neutropenia Log, and 12 Month Status Update forms should be on or after the day the patient reaches 6 and 12 months on study.
