(If not, list the reason why not eligible)	Was the patient willing to participate (if not, list reason why not willing)	Was the patient registered? (if not, list reason why not registered)

**S1316 Patient Accrual Tracking Log** to keep track of all potential patients. Please send the log to our team *once a month*. The log is available at the SWOG study webpage or you can request one from Octavio Bojorquez.

Thank you to everyone who has submitted a monthly patient log! These logs are used in the study's report to the DSMC to describe why it is so hard to register (and randomize) patients in this study population. Please continue to send them in!

## Randomizations and Surgical Management Registrations

We need to maintain the statistical integrity of the study. Currently the study is low on randomizations. On the Patient Choice arms, the study is heavily unbalanced in favor of non-surgical management. The study needs balance. Please focus on randomizations and surgical registrations.

## On-Call Weekend Coordinator

Funds are available for staff to be on-call on a weekend during normal working hours to assist with patient accrual. The study can provide a small stipend of \$40/day; \$80/weekend, and an additional \$200 if it is necessary to come in to register a patient. If you would like to use these funds or would like more information, please contact Octavio Bojorquez.

## SWOG's Spring 2018 Group Meeting

SWOG'S Spring 2018 Group Meeting will take place **April 11-14, 2017** at the **Hyatt Regency in San Francisco**. The **S1316 study meeting** will be on **Thursday April 12, from 5:30 pm-6:30pm**. Details about the location and phone line to connect to the meeting if you are not attending in person will be sent at a later time.

## Coordinator's Teleconference
