**S1316 Patient Accrual Tracking Log** to keep track of all potential patients. Please send the log to our team **once a month**. The log is available at the SWOG study webpage or you can request one from Octavio Bojorquez.

Thank you to everyone who has submitted a monthly patient log! These logs are used in the study's report to the DSMC to describe why it is so hard to register (and randomize) patients in this study population. Please continue to send them in!

## On-Call Weekend Coordinator

Funds are available for staff to be on-call on a weekend during normal working hours to assist with patient accrual. The study can provide a small stipend of \$40/day; \$80/weekend, and an additional \$200 if it is necessary to come in to register a patient. If you would like to use these funds or would like more information, please contact Octavio Bojorquez.

## Reference Documents

A new [template letter](#) is now available to send to referring staff when patients are not eligible to participate in S1316. The letter is intended to be used to:

- thank them for their referrals
- remind them of eligibility criteria, and
- encourage continued efforts to refer patients.

The letter has editable fields, and the date, recipient name, contact information, and investigator name can be customized for your site.
